

Scott Alexander
Senior Vice President of Business Development, Western Region
Teledyne Brown Engineering, Inc.

Scott Alexander is the Senior Vice President of Strategic Business Development and Acquisitions. He works from the Colorado Springs office. His primary role includes leading strategies and partnerships that will grow Teledyne Brown Engineering and maintain industry opportunities.

Prior to joining Teledyne Brown Engineering, Mr. Alexander served as the director of the Redesigned Kill Vehicle, and Deputy Director for the SM-3 IIA program for Raytheon. Mr. Alexander served as the program director for the Missile Defense Agency's Modeling and Simulation activities and as a U.S. Army Acquisition Officer with numerous program management positions including, Deputy Program Manager for the U.S. Marine Corps Medium Tactical Vehicle Replacement program which earned the Department of Defense Packard Award for Innovation in Acquisition. He retired as an Army officer after 20 years of distinguished service to his country.

Alexander holds bachelor's degrees in both Economics and Political Science from the University of Wisconsin – Oshkosh, a master's degree in International Relation from Troy State University and a master's degree in Business Acquisition/Procurement Management from Webster University. He attended several military schools, including the U.S. Army Ordnance School Basic and Advanced Course and the Army Command and General Staff College. Additionally, he is certified in Program Management, International Program Management, Test and Evaluation and Logistics by the Defense Acquisition University.
