

Jack Ickes
Senior Vice President, Commercial Space Operations
Teledyne Brown Engineering, Inc.

Jack Ickes serves as Senior Vice President of Commercial Space Operations. He is responsible for oversight and execution of the Commercial Space Imaging Projects.

Jack Ickes joined Teledyne Brown in June of 2015.

Prior to joining Teledyne Brown, Ickes ran his own company, Ickes Group LLC, providing consulting services to companies in the Geospatial market.

From 2011 through 2014, Ickes was President of the Geospatial Solutions Division within Leica Geosystems. There he was responsible for the aerial sensor business generating over \$80 million in annual revenue. He oversaw acquisitions that expanded the business to include Bathymetric, mobile and UAV sensors bringing the combined business to approximately \$100M in annual sales.

From 1991 until 2011, Ickes served in various technical and managerial positions with Intergraph Corporation. His assignments included, Development Engineer, SAP Project Manager, Vice President of Manufacturing and General Manager of Z/I Imaging. Ickes earned a Bachelor's Degree in Electrical Engineering from the University of Alabama in Huntsville in 1990. He is active in his community, serving as an Elder in his church.
